

SYNGREDIENT

SYNGREDIENT is a B2B online marketplace connecting suppliers, pre-processors, traders, and producers of the food-, feed- and petfood industry.

Our approved offer:

- Concrete product offers and -requests with specific product descriptions on our global marketplace
- Continuous credit rating and certificates check for our users.
- Documents exchange function through upload function.
- Acting anonymously on the market place
- Trading for 0,00 € in the free billing plan

New features to come

- **The tender function:** Launch a tender for your request or offer with us! A tender works as a (reverse) auction. You decide who and how many may bid on your offer/ request and about start- and stop-date, as well as the price limit.
- **The community function:** Create your individual marketplace within the Syngredient marketplace and trade with your approved suppliers and buyers.
